BCLM: Forging Ahead

2019 sees our plans for a brand new Visitor Centre, industrial quarter and historic town gather momentum and we’ll be staying open throughout the construction so that you can be a part of it!

From Autumn 2019, you’ll be able to see the new areas taking shape as we forge ahead into the 1940s, 50s and 60s – look out for information about the project as you make your way around the Museum today.

This does mean that a small number of our usual exhibits will be unavailable at certain times between now and completion in 2022. These are marked on the map overlaid with an asterisk and where possible, an alternative experience will be provided.

Keep up to date with progress and find out the different ways you can get involved at:
